3. FORENSIC OBSERVATIONS & VISUAL IRREGULARITIES

[RULE-VIS-001] Discrepant Font Family Detected — Severity: HIGH

Page 1 · Box [[140.0, 232.94, 248.0, 266.18]] · Class: Observation · Rule Weight: 0.88

Text span '$98,750.00' uses isolated font 'Times-Bold' (24.0pt) diverging from document primary type...

[RULE-CTX-001] Missing Mandatory Document Field — Severity: MEDIUM

Page 1 · Class: Inconsistency · Rule Weight: 0.9

Commercial invoice missing mandatory statutory field(s): Vendor / Payee Entity.

[RULE-GEN-001] Image Forensics Not Applicable — Severity: INFO

Page 1 · Class: Observation · Rule Weight: 1.0

image forensics not applicable: born-digital PDF with no embedded images

[RULE-GEN-001] Image Forensics Not Applicable — Severity: INFO

Page 1 · Class: Observation · Rule Weight: 1.0

image forensics not applicable: born-digital PDF with no embedded images

4. CROSS-DOCUMENT COMPARISON & DISCREPANCY MATRIX

Conflict: Primary Monetary Value: $1,250.00 in Purchase_Order_PO-2026-001_Apex.pdf vs $46,250.00 in Bank_
Financial disparity of $45,000.00 (97.3% variance) detected between Document A ($1,250.00) and Document B ($46,250.

Conflict: Referenced Execution Date: 2026-01-15 in Purchase_Order_PO-2026-001_Apex.pdf vs Jan 01, 2026 in
Document A records date '2026-01-15' while Document B specifies 'Jan 01, 2026'. Timeline variance requires verifica

Conflict: Primary Monetary Value: $1,250.00 in Purchase_Order_PO-2026-001_Apex.pdf vs $98,750.00 in Tampe
Financial disparity of $97,500.00 (98.7% variance) detected between Document A ($1,250.00) and Document B ($98,750.

Conflict: Referenced Execution Date: 2026-01-15 in Purchase_Order_PO-2026-001_Apex.pdf vs 2026-03-10 in T
Document A records date '2026-01-15' while Document B specifies '2026-03-10'. Timeline variance requires verificati

Conflict: Reference Identifier: PO-2026-001 in Purchase_Order_PO-2026-001_Apex.pdf vs INV-2026-0091 in Ta
Unlinked reference numbers: 'PO-2026-001' vs 'INV-2026-0091'.

Conflict: Primary Monetary Value: $46,250.00 in Bank_Statement_Jan2026_Apex.pdf vs $98,750.00 in Tampered
Financial disparity of $52,500.00 (53.2% variance) detected between Document A ($46,250.00) and Document B ($98,750

8. PLAIN-LANGUAGE INVESTIGATION SUMMARY

Forensic examination of Case 'Acquisition Financial & Forensic Due Diligence (Apex Global)' across 4 document(s) flagged 6 localized anomaly finding(s) (0 Critical, 1 High, 1 Medium) and 13 cross-document factual contradiction(s). Primary forensic indicators encompass discrepant typographic font families and bounding box overlap, chronological timeline reversals or futuristic execution dates, cross-document monetary variances and duplicate reference collisions. These algorithmic observations warrant prioritized manual inspection by the lead investigator.

10. LIMITATIONS & SYSTEM BOUNDARIES

Run-Specific Operational Limitations:

· OCR Execution: OCR processing was performed using available system optical engines, subject to baseline scan r
· Image Forensics Boundary: Born-digital vector PDF pages without embedded raster graphics were bypassed for pix
· AI Reasoning Inactive: Generative LLM analysis was not executed because the AI module is disabled or VEXORA_LL
· Heuristic Rules Active: Visual alignment, font consistency, and contextual anomaly rules are heuristic approxi

Standard System Assumptions & Boundaries:

· Digital vs. Physical Materiality: Analysis is confined to digital PDF streams, raster matrices, and byte-level
· Language Calibration: Heuristics, entity extraction, and contextual statutory checks are calibrated exclusivel
· Probabilistic Observations: Anomaly indicators are algorithmic heuristics produced for investigative triage an
